		Advanced Seminar				2					3	PL	
		Summation	19	19	2	16	120	30,0	30,0	30,0	30,0		

Explanations:

- 1) When choosing a module, proof of a subject-specific gain in competence in the master's program compared to the previous bachelor's program and, if necessary, of conditions imposed as part of the qualification assessment procedure must be proven. This results from the respective module description in the context of the qualification objective of the Master's course.
- 2) cf. § 45 Abs. 5. The Admissions Committee can determine modules from the bachelor's program (**Appendix 1**) and suitable language courses that were not already part of the applicant's pre-qualification to compensate for missing skills.
- 3) cf. § 46 Abs. 3 bzw. 4. the type and scope of the examination depends on the specific didactic character of the selected modules and can be found in the module handbook.
- 4) See the module manual; Apart from footnote 2, the following applies: according to § 28 **ABMPO/TechFak**, failed attempts are not counted and there is no obligation to repeat the exam if you fail.
