

Study plan M.Sc. Environmental Sciences

	1. Semester (winter)	2. Semester (summer)	3. Semester (winter)	4. Semester (summer)	
Compulsory modules	B1: Sustainability and Global Change (4 CP)			Master thesis (30 CP)	
	Sustainability and Global Change (2,5)				
	Global Change Lecture Series (1,5)				
	B2: Tools for Complex Data Analysis (6 CP)		INT: Research and Training Internship (8 LP)		
	Study Design and Univariate Statistical Approaches (3)		Research and Training Internship (8)		
	Multivariate and Probabilistic Approaches (3)				
	B3: Fate and Transport of Pollutants (6 CP)				
	Advanced Environmental Chemistry (3)				
	Transport Processes (3)				
	B4: Land Use and Ecosystems (6 CP)				
	Ecoregions and Land Use (3)				
	Anthropogenic Ecosystems (3)				
	B5: Environmental Economics (6 CP)				
	Environmental and Resource Economics (3)				
Special Topics in Environmental Economics (3)					
Elective modules	4 modules Elective subject I (24 CP)				
	4 modules Elective subject II (24 CP)				
	1 module Optional Module (6 CP)				
Sum (CP)	30	30	30	30
