

Attachment 1 of the Study and Examination Plan for the MAster's Degree in Architecture (DIA) 2021 and 22

The study plan specifies the volume and assignment of the modules to the individual semesters of the standard period of study as well as their crediting. Components of the Master's examination are: the compulsory and elective module examinations, the Master's thesis and the Master's colloquium. The prerequisites for the examination are the prior achievements according to this appendix. The teaching content in all modules can be partially or completely supported by multimedia
