What can be funded?

The programme provides funding for

- a whole postgraduate or Master's degree programme completed at a state or state-recognised university in Germany or
- one year of study in Germany as part of a second or Master's degree completed at your home university. The general condition is that the academic credits you gain in Germany are recognised by your home university. Moreover, the standard period of study at your home university should not be exceeded as a result of the study year in Germany.

A Master's degree programme already started in Germany cannot be funded.

Duration of the funding

Depending on the length of your chosen programme, the scholarship is intended for visits of **between 10 and 24 months**.

The scholarships are awarded for the duration of the standard period of study for the chosen programme (up to a maximum of 24 months). Please state the entire period for which you wish to apply for funding in your application. For example, if you are planning a 2-year degree programme, you must directly indicate two years as the desired scholarship duration in your application. After the first year of study, your academic achievements will be assessed in a further funding procedure. If this shows that you will successfully complete your programme within a reasonable period of time, the scholarship will continue as planned.

The scholarship usually begins on 1st October of the following year, or earlier if you take a German language course prior to the study programme.

- If applicable, relevant internships, work experience

Quality of the study project

- Quality of the study project and of the preparation (preliminary information, choice of degree programme, host university and establishment of contacts)

- Extracurricular commitment: extracurricular knowledge and skills, social commitment.

In addition, the selection committee will give due consideration to aspects of equal opportunities, on which you can provide information in the application form.

For further information on the selection procedure, please refer to the [Important Scholarship Information \[https://www.daad.de/en/study-and-research-in-germany/scholarships/important-information-for-scholarship-applicants/\]](https://www.daad.de/en/study-and-research-in-germany/scholarships/important-information-for-scholarship-applicants/) / Section E.

Application requirements

What requirements must be met?

Please check if the following criteria are fulfilled:

- As a rule, your university degree should not date back more than 6 years at the time of the application deadline. Please read our [important information for scholarship applicants / Section A, point 2 \[https://www.daad.de/en/study-and-research-in-germany/scholarships/important-information-for-scholarship-applicants/\]](https://www.daad.de/en/study-and-research-in-germany/scholarships/important-information-for-scholarship-applicants/).
- Please note that you yourself are responsible for ensuring your application for admission to the German university for your chosen study programme is submitted by the due date. It is therefore important that you find out about admission requirements, application and enrolment deadlines at your host university and regulations regarding entry into Germany in good time. If you have not yet received notification of admission at the time of application, you must submit this before the funding period begins. A Scholarship Award Letter from the DAAD is only valid if you have been admitted to study at your chosen host university.
- If the degree programme includes a period of study or work placement outside Germany lasting several months, this period abroad is usually only funded under the following conditions:
The study visit is essential for achievement of the scholarship objective, the visit does not take place in the home country, and it is no longer than a quarter of the scholarship period. Longer periods cannot be funded, even partially.
- Your application **cannot** be considered, if you have been resident in Germany for longer than 15 months at the application deadline.

Language skills

The language of instruction for study programmes in Germany is German. In international programmes, the language of instruction is English, or German **and** English.

When you **apply** to the DAAD for a **scholarship**, you must provide proof of your **level of proficiency in the language of instruction** (German, English, or German **and** English) in your chosen study programme. As a rule, the following certificates can be provided for German: TestDaF, DSH, Deutsches Sprachdiplom der Kultusministerkonferenz (DSD), Goethe-Zertifikat, Österreichisches Sprachdiplom, telc Deutsch and onSET Deutsch. For English, the following certificates can be submitted: Cambridge English, Cambridge Business, IELTS, ISE, TOEFL iBT, TOEFL Essentials, TOEIC, PTE Academic and onSET English. An onSET test can be taken in many countries, e.g. with a DAAD Lektor. Please also take a look under "Contact and Consulting". **In the section "Application procedure" under "Application documents", find out whether specific certification is required for your country of origin.**

If you are awarded the scholarship, the DAAD can award you a German language course prior to your funding project (see section "Value"). During the DAAD's scholarship selection procedure, we assess whether you require such a language course and how many months are appropriate (maximum of six). This German course can help you improve your German language skills. However, it is not realistic to expect to reach the level required for university admission in these courses if, up until this point, you have no or very little previous knowledge of German.

To **apply for a place at the university** and therefore for the **start of funding**, you must submit proof of your language skills (e.g. DSH or TestDaF if the language of instruction is German; e.g. TOEFL or IELTS if the language of instruction is English). Level C1 is often required, but this varies from programme to programme. Ask your chosen host university about requirements well in advance. For more information about requirements, check out our [website \[https://www.daad.de/en/study-and-research-in-germany/plan-your-studies/the-german-language/\]](https://www.daad.de/en/study-and-research-in-germany/plan-your-studies/the-german-language/).
