Description/content	Computer Science lies at the core of all modern industries, as computer systems and information technology are the basis for almost all of today's production processes. Computer technology changes constantly, but there are a number of fundamental principles underlying these

	technologies. The Computer Science programme at Constructor University focuses on understanding these principles and their application in practice. In addition to courses dealing with core competencies (programming, software engineering, foundations of computer science), you will cover mathematics (calculus, linear algebra, and statistics) and take courses in engineering and sciences whilst also conducting guided research.

Course Details

Course organisation	All programmes are individually structured. Every student is assigned to an academic adviser. The goal of academic advising is to provide detailed information to students concerning the programme of study and to help students manage their time at university to their best advantage.
International elements	• International guest lecturers • Training in intercultural skills • International comparisons and thematic reference to the international context • Language training provided • Integrated study abroad unit(s)
Integrated study abroad unit(s)	The fifth semester opens a mobility window for study abroad options.
Integrated internships	The internship programme is a core element of Constructor University's employability approach. It includes a mandatory internship (minimum eight weeks full-time), which provides insight into the labour market as well as practical work experience related to the respective area of study. Successful internships may initiate career opportunities for students. For more information, please contact the Career Services Center (https://constructor.university/student-life/career-services).
Course-specific, integrated German language courses	No
Course-specific, integrated English language courses	No

Costs / Funding

Tuition fees per semester in EUR	10,000 EUR
Additional information on tuition fees	Annual **undergraduate** 2023/24 tuition fees – 20,000 EUR Annual **graduate** 2023/24 tuition fees – 20,000 EUR Annual **International Foundation Year** 2023/24 tuition fees – 12,000 EUR
