Master's degree

Environmental Governance (MEG)

University of Freiburg • Freiburg im Breisgau

Overview

Degree	Master of Science in Environmental Governance
Teaching language	<ul style="list-style-type: none">English
Languages	Courses are held in English (100%).
Full-time / part-time	<ul style="list-style-type: none">full-time
Programme duration	4 semesters
Beginning	Winter semester
Application deadline	15 May for the following winter semester DAAD-EPOS scholarship applicants from developing countries can apply from 15 July to 15 October for the winter semester of the following year
Tuition fees per semester in EUR	Varied
Additional information on tuition fees	The tuition fees in Baden-Württemberg apply only to non-EU students (1,500 EUR per semester).
Combined Master's degree / PhD programme	No
Joint degree / double degree programme	No
Description/content	<p>Sustainable development and accordingly sustainability in the manifold relationships between humans and the environment have become integral rules of conduct in politics and society. This is also true in economics, where for many companies a commitment to the principles of sustainability has become a central strategic competitive advantage. One of the major challenges to the implementation of the overall concept of sustainable development concerns effective governance processes between various stakeholders.</p> <p>The MSc programme "Environmental Governance" (MEG) addresses this special need. Since its establishment in 2005, it has been training academics in the broader field of Environmental Governance, understood as new modes of social coordination among market, state and civil society actors. With that, the MEG aims to fill the gap between technically oriented environmental management programmes and purely disciplinary environmental politics programmes. MEG is exceptional in its highly interdisciplinary approach; at its core it is socially-scientific, but it provides</p>

students with basic "scientific literacy" in the more technical aspects of pressing environmental challenges.

The MEG programme is designed as a two-year (four-semester), full-time programme (120 ECTS). Teaching is organised in core and elective modules aiming at the following:

- Realising - The development of a sound knowledge base of the most pressing environmental issues facing the planet and their underlying societal causes
- Understanding - The reflection on human-environment interactions from a wide spectrum of disciplines, approaches and world views
- Managing - The provision of methodological knowledge and skills for the context-sensitive design and management of environmental governance processes

Target Group:

The programme targets students from various disciplines who aspire to become leaders in the complex field of sustainable development i.e., "Sustainability Designers" with innovative ideas about environmental governance arrangements which go beyond the traditional functional, structural and territorial boundaries; and "Sustainability Managers" who embrace and understand these ideas, and who are capable of finding ways to implement them in a context-sensitive manner. Practitioners and students with a background in engineering or the natural sciences are welcome. However, they have to show high motivation and willingness to concentrate mainly on social science theories and concepts during their two years of study.

Course Details

Course organisation

Learning is organised in a standard study mode during the winter semester, but it is in three-week block modules during the summer semester. Students earn 5 ECTS ([European Credit Transfer System](#)) credits upon successful completion of each module. The modules are classified either as core or elective. In total, 120 credits are required for the successful completion of the programme. An [internship](#) of a minimum of seven weeks and a [Master's thesis](#) are also incorporated into the curriculum.

For information about individual modules, please check the [Module Handbook](#).

» [PDF Download](#)

A Diploma supplement will be issued

Yes

International elements

- International guest lecturers
- Training in intercultural skills
- International comparisons and thematic reference to the international context
- Courses are led with foreign partners
- Content-related regional focus

Description of other international elements

In addition to the training in intercultural skills, we also provide a weekend seminar on intercultural team skills.

Diverse intercultural background of students

In a class of 35 students, 20 to 25 nationalities are represented, coming from across the world.

Integrated internships

An internship lasting for a minimum of seven weeks is to be completed during the summer break between the second and third semesters (10 ECTS credits). The MEG internship supervisor will assist students in finding appropriate internships. A list of internships from previous years is available [here](#).

Course-specific, integrated German language courses No

Course-specific, integrated English language courses No

Costs / Funding

Tuition fees per semester in EUR 1,500 EUR

Additional information on tuition fees The [tuition fees in Baden-Württemberg](#) apply only to non-EU students (1,500 EUR per semester).

Semester contribution 180 EUR per semester:

- Administrative fee: 70 EUR
- Contribution to the constituted student body: 7 EUR
- Contribution to the student union: 103 EUR

Costs of living Participants must ensure that sufficient funding is available to finance their participation in a course of study. The average cost of living in Freiburg for one month is currently approx. 850 EUR to 1,000 EUR.

Some details:

- Rooms in private accommodation including extra costs: 350 EUR – 700 EUR
- Rooms in student residences including extra costs: 250 EUR – 550 EUR
- Private expenses amount to around 350 EUR per month.
- Health insurance (recommended) is available for approx. 120 EUR per month.
- Transport: A special student ticket for regional transport costs approx. 89 EUR per semester.

Funding opportunities within the university No

Requirements / Registration

Academic admission requirements Applicants are required to have a BSc (or equivalent first degree) well above average in one of the following fields: Environmental Management, Environmental Sciences, Agricultural or Forest Sciences, Geography, Political Sciences, Sociology, Law, Economics, Ethnology, International Cooperation, Development Studies, Nature Conservation, Environmental Management, Land Use Planning, Natural Resource Management, among others. At least some of the courses taken in the aforementioned degree must be relevant to Environmental Governance.

Applicants for DAAD-EPOS scholarships for candidates from developing countries must have two years of work experience at the time of application and the last university degree must not be older than six years.

Language requirements Applicants must provide proof of their English skills: TOEFL iBT > 95 (Internet-based); IELTS band 7,

Pearson Academic minimum score 76, Cambridge Advanced Certificate of English (CAE)

Application deadline

15 May for the following winter semester

DAAD-EPOS scholarship applicants from developing countries can apply from 15 July to 15 October for the winter semester of the following year

Submit application to

The [online application portal](#) is open from 1 March (14:00) to 15 May.

Applications for a [DAAD-EPOS scholarship](#) have to be submitted to info-meg@unr.uni-freiburg.de by 15 October for the following year.

Services

Possibility of finding part-time employment

It is very difficult to finance your studies and life in Germany with a part-time job alone, and if you have a part-time job that takes up a lot of time, your academic performance will suffer. This may prolong your studies and, in the worst case, jeopardise your residence title. Find more details [here](#). We strongly recommend to not work more than five to seven hours per week.

Students are allowed to work up to 140 days or 280 half days per year and max. 20 hours per week. A limited number of positions as student research assistants or tutors is available in the department.

Accommodation

As Freiburg is an attractive city, finding a suitable and affordable place to live can take a little while. The University of Freiburg offers all newly enrolled international students the possibility to apply for student housing via the International Office. In addition to these dormitories, which are run by the Studierendenwerk Freiburg (www.swfr.de/en), several independent residence halls are listed on the university website (<http://www.housing.uni-freiburg.de>). The Studierendenwerk Freiburg and the International Office also offer a list of available private rooms.

Career advisory service

A one-day career development workshop specifically for MEG students takes place at the end of the programme.

The "Service Center Studium" regularly offers a [training event for career entry](#) for international students.

Support for international students and doctoral candidates

- Welcome event
- Buddy programme
- Tutors
- Specialist counselling
- Cultural and linguistic preparation
- Visa matters
- Help with finding accommodation
- Support with registration procedures

General services and support for international students and doctoral candidates

- Orientation week
- Team-building workshop
- Master's thesis peer coaching groups, guided by a professional coach
- Graduation ceremony

Supervisor-student ratio

1:5

©MSc Environmental Governance

Catherina Irura
MSc

The multi-disciplinary nature of MEG, which is one of its key strengths, has given me leverage in my career. There is also a certain skill set that equips students for problem-solving at different levels and is good for project management. The lessons from MEG on different governance models, environmental policy analysis and environmental conflict resolution have been quite instrumental to my day-to-day work.

Perspectives From Current Students

Students share their backgrounds and explain why they study MEG.

University of Freiburg

The University of Freiburg was founded in 1457 as a classical comprehensive university, making it one of the oldest institutions of higher education in Germany. Awarded for its excellence in both research and teaching, the university also boasts a long history, with numerous Nobel laureates. Brilliant scholars and creative thinking distinguish it today as a modern, top-notch university, well equipped for the challenges of the 21st century. As an organisation with around 24,500 students, 288 degree programmes, and 6,536 employees (2021), the University of Freiburg is committed to family friendliness, equal opportunities, and environmental consciousness in its day-to-day operations. The structure of the university is multifaceted, ranging from 11 academic faculties – from the humanities and the social and natural sciences all the way to engineering – to 19 research centres. This goes to show that we are a dynamic, large-scale institution with a

diverse educational offering. As studies, research, and continuing education are all an integral part of this offering, we maintain a close relationship with the city and the region as well as with the international academic community. Bilateral partnerships, research projects, joint study courses and memberships in international networks such as the League of European Research Universities (LERU) and of EUCOR – The European Campus are examples of the university's strong transnational relations. All our students, including those from abroad, can take courses at the Universities of Basel (Switzerland) and Strasbourg (France) without having to enrol. Via EUCOR, The European Campus mobility grant, they also receive allowances for travel expenses to their partner institutions.

universität freiburg

University location

Freiburg im Breisgau is a city in south-western Germany on the edge of the Black Forest. Freiburg was founded by Konrad and Duke Bertold III of Zähringen in 1120 as a free market town – hence its name, which translates to "free town". Freiburg holds a central position in Europe at the trijunction of Switzerland, France, and Germany, and is the city with the most hours of sunshine per year in Germany. It is nestled in one of the oldest cultural landscapes north of the Alps, a location which has had an unmistakable influence on the town. The university plays an essential part in the quality of life in Freiburg; both in the academic sphere and in the perception of the general public, the activities of the university are of central importance. Since its founding, teaching, learning and research have formed an indivisible whole.

With approx. 230,000 inhabitants, Freiburg has a friendly size, offering the safe surroundings of a smaller city whilst at the same time excelling in terms of culture, shopping and infrastructure. Both the inhabitants and the city government of Freiburg attach great importance to ecological values and sustainable development. This "green city" atmosphere influences many aspects of city life – from the numerous cyclists on the streets to cutting-edge solar energy research. Surrounded by the beautiful landscapes of the Black Forest and the wine-growing regions of the Rhine Valley, Freiburg is a popular destination for tourism and leisure activities.
