Tuition fees per semester in EUR	None
Joint degree / double degree programme	No
Description/content	<p>The Bachelor's degree course Aviation Management is an educational offer for students who wish to combine a business management degree in English with a course that places a strong emphasis on the knowledge and understanding of the aviation industry. Students will be given a comprehensive basic education in general business management. The main emphasis of the Bachelor's degree course is on aviation business management.</p> <p>Besides in-depth general management lectures, students take advanced business courses tailored specifically to the aviation industry, such as Airline Business Models and Strategies, Network Management and Scheduling, Airport Management, Air Cargo and Logistics Management, Flight Operations, Air Transportation Policy &amp; Law and Aviation Analytics. Thanks to strong interactions with top companies in various segments of the industry, the programme is constantly adjusting to a rapidly evolving environment. For instance, the relatively new field of travel technology, which will gain in importance in the future, is already integrated in the curriculum.</p> <p>Furthermore, students have a unique opportunity to apply and develop their acquired skills and</p>

knowledge in the reality of day-to-day operations of an airline, airport or other aviation companies. Seminars and an Aviation Management Simulation game round off the extended education that prepares students for the challenges of the aviation industry.

## Course Details

### Course organisation

The degree programme is divided into three subject groups (198 credit points without thesis) according to their content, with the following evaluation scheme:

#### General Management Modules

- Introduction to Business Administration
- Introduction to Economics
- Analytical Methods
- Financial Accounting and Reporting
- Marketing and Sales Management
- Managerial Accounting and Finance
- Human Resources Management and Organisational Development

#### Tourism, Travel and Aviation Management Modules

- Introduction to Aviation Management
- Introduction to Tourism and Travel Management
- Air Transportation Policy and Law
- Flight Operations
- Sustainable Aviation
- Airport Management
- Pricing and Revenue Management
- Airline Business Models and Strategies
- Air Cargo and Logistics Management
- Network Management and Scheduling
- Aviation Analytics
- Information Management and Digital Transformation
- Seminar Aviation Management 1
- Seminar Aviation Management 2
- Business Travel Management
- Management Simulation Game
- Elective modules (e.g. International Business, Business Travel Management)

#### Management Skills

- Research Methods, Presentation and Soft Skills
- Business English
- Management in Practice I-IV (internship, report, presentation)

In addition, students have to write a thesis (12 credit points) in order to graduate.

The module Management in Practice describes the internships which students have to complete.

This degree course can be studied either as a full-time degree programme or as a cooperative study course in cooperation with a partner from the aviation industry. The content structure for students of the cooperative study course is identical to the one for students of the full-time degree course. Students of the full-time degree course in particular are expected to gain work experience during their studies, which will be equivalent in length of time and content specifications to those of students in the cooperative study course.
