Joint degree / double degree programme	No
Description/content	The BA Interior Architecture / Interior Design programme provides students with the skills and knowledge to develop and apply creative and sustainable solutions in the field of interior architecture and interior design. The programme is firmly grounded in the vibrant city of Berlin but taught exclusively in English and geared towards building an international practice. Students explore the relationship between the spatial environment and its users and inhabitants. They are encouraged to pursue experimental approaches to interiors and develop the flexibility to accommodate changing living conditions. They learn to conceptualise, plan, and realise interior

spaces and communicate their ideas in shifting cultural contexts.

Interior Architecture is a protected profession in Germany. In order to be entitled to use the title of “Interior Architect”, professional practice and registration with the Chamber of Architects are obligatory.

In a practice-driven and supportive learning atmosphere, an internationally experienced team of lecturers and professors encourages students to explore their individual talents and forge their own professional paths.

---

## Course Details

---

### Course organisation

The first year of the BA Interior Architecture / Interior Design programme provides students with a broad foundation in basic design skills, material and interior construction fundamentals, visualisation skills, and a historical framework. In the second year, students deepen their construction knowledge, tackle interior design projects, learn about building services and lighting, and reflect on the discipline of interior architecture from a theoretical vantage point. During the third year, students collaborate with peers from other programmes on an interdisciplinary design project to develop a tailored design solution for a real-life client. In addition, they complete an internship and hone their research skills. During the last semester, students apply and deepen their acquired skills by completing a Bachelor's thesis and a Bachelor's design project with a topic of their own choice.

## Costs / Funding

---

Tuition fees per semester in EUR 4,470 EUR

**Additional information on tuition fees**

**EU nationals**

- Tuition fee: 745 EUR per month, monthly instalment
- Registration fee: 250 EUR one-time, non-refundable fee

**Non-EU nationals**

- Tuition fee: 4,640 EUR per semester, payable per semester
- Registration fee: 600 EUR one-time, non-refundable fee

**Semester contribution**

Included in the tuition fees

**Funding opportunities within the university**

Yes

**Description of the above-mentioned funding opportunities within the university**

All funding opportunities offered at Berlin International University of Applied Sciences can be found [here](#).

## Requirements / Registration

**Academic admission requirements**

You will generally need to hold a German "Abitur/Fachabitur" or equivalent to meet the German university entrance level requirements. These are set by the German Central Office for Foreign Education and apply to most German-accredited higher education institutions.

The requirements for the equivalence vary from country to country. We have summarised a few for the most frequently asked education systems:

- [US high school diploma](#)
- [IB diploma](#)
- [GCE A levels](#)

The required documents for all BA programmes are as follows:

- **Official high school diploma with transcript** (German "Abitur/Fachabitur" or equivalent)
- **Official university certificates and transcript of grades** – if applicable
- **Passport**
- **English language test** (level B2 or above)
- **Portfolio** with a minimum of 10 works – for Design and Architecture programmes only

**Language requirements**

Since all of our programmes are fully taught in English, we will require a proof of your language skills. German knowledge is not required.

If your language skills are at B2 level or above, one of the following language test certificates and scores can be accepted for your application:

- TOEFL ITP: 543
- TOEFL IBT: 74
- IELTS (Academic): 6.0 overall
- Cambridge FCE: B2
- PTE Academic: 59
- BAU "English Language Proficiency Exam": 60/100

- IB Diploma: English A or B at HL or SL
- German "Abitur" after 2011

If you have not completed high school in a majority-English-speaking country (i.e. USA, UK, Canada, Australia, Ireland, New Zealand), an approved language exam is required in order to qualify for admission.

You are welcome to attend the internal Berlin International language proficiency exam. It will be hosted via the software MS Teams and participation can only be offered after application to one of our programmes.

**Application deadline**

**Start in summer semester** (only for students transferring into a higher semester)  
1 December until 31 January

**Start in winter semester** (for new and transfer students)  
1 December until approximately 31 August

**Submit application to**

You must complete your application electronically through our online portal at <https://apply.berlin-international.de/>.

You will have to register, enter your personal details, and finally upload the required documents.

Once you have completed your online application, we will review it as soon as possible.

## Services

**Possibility of finding part-time employment**

Berlin offers ample opportunities for a wide range of student jobs. German language skills are advantageous.

**Support for international students and doctoral candidates**

- Welcome event
- Specialist counselling
- Cultural and linguistic preparation
- Visa matters
- Buddy programme

# Berlin International University of Applied Sciences

Berlin International University of Applied Sciences is a state-recognised and non-profit German university of applied sciences located in the centre of Berlin. We are determined to offer a challenging, innovative and practice-oriented education that advances the academic, cultural and linguistic potential of our students and prepares them for international careers in a globalised world.

With our diverse student body and academic staff from more than 92 countries, our university embodies internationality and offers an open-minded, intercultural and inspiring study atmosphere.

Berlin International University of Applied Sciences is also part of growing international university networks including universities, campuses, and academic centres in Istanbul, Washington D.C., Toronto, and Batumi, thus offering ample opportunities for study and internship exchanges. Our students may also participate in various Erasmus+ programmes.

The language of instruction in all study programmes is English. For students who need to improve their English, we offer an English Preparatory Programme. Additionally, in order to further advance international career opportunities, language courses are offered as elective courses.

The quality of all our programmes has been positively evaluated and accredited by ACQUIN, a state-recognised agency.

## University location

It is no coincidence that Berlin has been chosen to host the Berlin International University of Applied Sciences campus. Berlin is one of the most innovative and exciting cities in contemporary Europe, as well as the city that is most attractive and in demand specifically for university students. Students at Berlin International will have the opportunity to learn about German culture, politics, history, and daily life while getting to know their new home easily with the help of many internationally oriented businesses and services throughout the city.

Additionally, life in Berlin is made easy for the students at Berlin International thanks to the opportunity to book a place in one of the university's student apartments. Berlin is a city of science and research. More than 200,000 people from all over the world work, study, and do research at more than 30 universities and 60 research institutions throughout Berlin. Excellent university and state libraries as well as museums provide a stimulating intellectual atmosphere.

Berlin International University of Applied Sciences maintains partnerships with many universities and scientific institutions in Berlin and organises joint activities for our students. The special atmosphere and charm of Berlin are a result of its very distinct urban character. It is the largest and most lively urban centre in Germany – a hub of government, business, and culture – and at the same time, it is Germany's greenest city, with two large rivers, hundreds of parks, and large forests that offer great opportunities to spend time outdoors.

The city boasts more than 170 museums, many theatres, and three state operas. Throughout the year, festivals of music, theatre, and cinema take place in Berlin. In addition, the city has become known all over the world for its young lifestyle, night life, cafés, and bars.
