Master's degree

MSc Digital Health

Deggendorf Institute of Technology • Pfarrkirchen

Overview

Degree	Master of Science (MSc)
Teaching language	<ul style="list-style-type: none">English
Languages	Course language: English
Programme duration	3 semesters
Beginning	Winter semester
Application deadline	15 April to 15 July for October entries (winter semester)
Tuition fees per semester in EUR	None
Combined Master's degree / PhD programme	No
Joint degree / double degree programme	No
Description/content	<p>The Master's programme in Digital Health is designed to expand the competence of Bachelor's (or equivalent degree) graduates with theoretical knowledge, practical skills and methodological competences in digital health to meet the requirements of management and research and development tasks used in today's health industry. Graduates of this programme will be capable of empirical research and development in the fields of telematics, telemedicine, "eHealth" and digital health application systems. They will also be well-connected with national and international providers. The theoretical foundations of this programme give students a chance at successful careers in business or in science.</p> <p>Students are taught in these four module clusters:</p> <ul style="list-style-type: none">Health CareDigital HealthResearch & MethodologySoft Skills <p>First semester:</p>

- Fundamentals of Medicine and Computer Science
- International & Global Health
- Digital Health Fundamentals
- Digital Health Technology
- Digital Health Coding
- Contemporary Health Research

Second semester:

- Digital Health Information System
- Digital Health Applications
- Health Economy and Management
- Digital Health Data Protection
- FWP-1: Digital Health Management
- FWP-2: Digital Health Data Analytics & Artificial Intelligence
- FWP-3: Digital Health Entrepreneurship
- FWP-4: Digital Health Programming

Third semester:

- Intercultural and Scientific Communication & Management
- Master's thesis

Current information

Rankings

WURI (World University Rankings for Innovation) – Ranking 2023:

- Number one worldwide in the category "Entrepreneurial Spirit"
- Number 16 worldwide in the overall ranking of the most innovative universities

Course Details

Course organisation

The Master's programme in Digital Health comprises three theoretical semesters and is concluded with a Master's thesis. English proficiency is an essential prerequisite. Studies begin in the winter semester. Upon successful completion, the degree "Master of Science" is awarded.

International elements

- Integrated/optional study abroad unit(s)

Integrated/optional study abroad unit(s)

Students have the opportunity to spend one or more semesters abroad at a partner university (Erasmus exchange).

Course-specific, integrated German language courses

Yes

Course-specific, integrated English language courses

Yes

Costs of living	Approx. 760 EUR per month Click the following link to find a financial overview for students who are living and studying here: monthly expenses .
Funding opportunities within the university	Yes
Description of the above-mentioned funding opportunities within the university	If you are an enrolled DIT student, there are several opportunities to partially finance your studies through a scholarship. Detailed information about funding opportunities is published here: https://th-deg.de/en/study-with-us/funding .

Requirements / Registration

Academic admission requirements	<ul style="list-style-type: none"> • Bachelor's degree (or equivalent) in informatics, health sciences or economic sciences
Language requirements	Please find the language requirements for this degree course here: https://www.th-deg.de/en/apply#language-requirements .
Application deadline	15 April to 15 July for October entries (winter semester)
Submit application to	Please apply directly to Deggendorf Institute of Technology via our application portal. All required documents must be uploaded on the application portal. It is not necessary to send in hard copies by postal mail. Please find more details regarding our application process here: https://www.th-deg.de/en/apply#international

Services

Possibility of finding part-time employment	There are various job opportunities in and around Pfarrkirchen.
Accommodation	A supportive environment is vital for students to feel comfortable and do well in their studies. Therefore, we go to great efforts to support our students on personal, social and academic levels. The International Office assists international students with all matters regarding accommodation.

In Pfarrkirchen, many flats are available in close proximity to the campus. View our flat rental website for private accommodation and get directly into contact with landlords: <https://pmit-ext.th-deg.de/wb/search>.

For further information, please contact: accommodation-dit@th-deg.de.

Career advisory service

Career service workshops and seminars are held throughout the year to help students with their job applications and interview techniques.

We provide the following:

- CV checks
- Workshops and seminars for job preparation
- University job fair

Furthermore, we offer the [Job Rock-It programme](#), especially designed for international degree-seeking students. In this programme, a clever combination of seminars, workshops and lectures provides a basic understanding of the German economy and thus enables easy access to the German labour market. This programme can help students with their final theses, and it can lead to internships or even permanent positions after graduation.

Support for international students and doctoral candidates

- Welcome event
- Buddy programme
- Tutors
- Cultural and linguistic preparation
- Accompanying programme
- Visa matters
- Pick-up service

Jessica Ortiz Huerta
MSc Medical Informatics

My experience has been nice and challenging. I never imagined I'd have so many friends from all over the world. I am learning about cultural differences and traditions, and to understand the different health systems and economies. Most importantly, I'm learning how to be a better person by cherishing all the indirect and direct experiences, values and mindsets from my colleagues and professors. Without a doubt, this is one of the most enriching experiences of my professional and personal life.

We are a multi-award-winning university of applied sciences founded in 1994 and located in stunning Bavaria. Ranked as one of the best universities of applied sciences in Germany, we strive for academic excellence and are committed to producing global graduates with international degrees at multiple levels. The total student population of more than 8,700 includes 45% international students from all over the globe. The language of instruction is either English or German, depending on the degree programme. Study groups rarely include more than 50 students to ensure not only a personal atmosphere but also individual support for students to excel. All full-time degree

programmes are free from tuition fees.

Explore our [fields of study!](#)

Let us inspire you:

- [See the advantages of studying at DIT.](#)
- [Read through the International Prospectus.](#)

Intensive support:

A supportive environment is vital for students to feel comfortable and do well in their studies. We go to great efforts to support our students on personal, social and academic levels. International students who wish to experience the Bavarian lifestyle in a family can join the “Host Family Programme”. “International Tutors” provide social support for international students, while “Study Buddies” help students to understand challenging lecture content. The International Office supports with accommodation, visas, health insurance, scholarships, etc. in addition to organising an orientation week and intercultural training for all incoming internationals.

- [Find out more about student support.](#)

International experience:

Our [216 partner universities worldwide](#) provide enrolled students with opportunities to gain experience and earn credits towards their degrees through foreign exchange semesters, or in some cases, through double-degree studies abroad.

Practical experience:

All undergraduate studies include a compulsory internship, giving students the opportunity to practice their hands-on skills. Postgraduate students have the opportunity to work on practical research and development projects on our own [technology campuses](#). We cooperate with more than 500 companies, including global players such as BMW, MAN, Continental and Siemens, where students can gain invaluable work experience. The university's [career service](#) organises a range of practical workshops and seminars to prepare students for the job market, meaning our graduates are particularly successful in the job market; 87% enter into permanent employment directly after graduation.

Student lifestyle:

We consider a [good lifestyle](#) to be an important factor for the well-being of our students. They are supported with many facilities, such as a range of student clubs, an extensive sports programme, a big band, a campus cinema, an international week including an international food fair, and social activities or day trips organised by the Erasmus Student Network. Our annual campus open day and summer open-air music festival are firm favourites among our staff and student community.

University location

Our three teaching campuses are located in Bavaria in Southern Germany, close to the city of Munich, the Austrian border and the Alps. Our main flagship campus is located in charming [Deggendorf](#) and is the base for most students. The [European Campus Rottal-Inn \(ECRI\)](#) is a dynamic and multicultural study environment where all classes are exclusively in English. The Cham campus is a cosy international hub for AI and mechatronic students.

[View the campuses](#)

Deggendorf Campus:

The [Deggendorf campus](#) is our largest campus, and it has recently undergone a vast extension to accommodate the expanding university community. It has a modern, central courtyard with a hovering deck over water where staff and students relax while having lunch, socialising, revising or just lounging. All lecture rooms, science labs, facilities and service centres are based on and around campus, creating an excellent studying environment.

The beautiful town of Deggendorf has a population of 40,000 and is located on the banks of the Danube river at the foot of the Bavarian Forest. Munich International Airport is one hour's drive away and can easily be accessed by public transport. Our students enjoy vibrant social lives, as Deggendorf has plenty to offer: restaurants, cafés and pubs, plus many cultural festivals and events. It has an excellent network of bike trails, leisure cruise ships on the river and a surrounding hilly landscape that provides a stunning natural backdrop to enjoy

countless recreational activities.

Newly built, self-contained student apartment blocks are within close walking or biking proximity to campus, the town centre and all local amenities.

European Campus Rottal-Inn:

At the [European Rottal-Inn campus](#), all Bachelor's and Master's degree programmes are conducted exclusively in English, creating a dynamic study environment with a diverse and international student community.

The campus is nestled in the town of Pfarrkirchen among rolling, picturesque hills between the Danube and Inn rivers, close to the Austrian border. Pfarrkirchen has become culturally renowned in the area due to its exceptional art exhibitions, museum nights, festivals and events throughout the year. In summer, the old town festival tempts thousands of visitors with its multicultural culinary and musical events. All year round, students enjoy the relaxed Bavarian atmosphere in local cafés, restaurants and markets in the traditional town square. The surrounding beautiful Rott Valley has a range of appealing leisure activities, being well-known for its spas, golf courses, equestrian sports and extensive bike network.

Cham campus:

The Cham campus is our newest and most compact campus, with over 600 students, 75% being international students. Its Master's programmes are taught completely in English, and students benefit from intensive personal supervision in small study groups. The campus has a close relationship with regional and national companies in the field of mechatronics, so students learn in both an applied and scientific way.

Only a ten-minute walk from the town centre of Cham, the campus offers a unique atmosphere. Situated directly on the Regen River, students complete their studies in a relaxed and scenic country environment.

There are plenty of leisure facilities within walking distance of the campus: a leisure park with various sports facilities, a swimming pool with access to the river, a cinema, a climbing hall, shops and restaurants. It's a great place to live and study!
