ambition to drive innovative drug development. The Medicinal Chemistry and Chemical Biology		No
	Description/content	ambition to drive innovative drug development. The Medicinal Chemistry and Chemical Biology

understanding of the drug-body interaction from the molecular to the physiological level. By engaging this broader approach, that is, not only trying to cure disease (medicinal chemistry) but also placing an emphasis on the underlying associated cellular pathways (chemical biology), further innovative opportunities for treating disease will come forward. In this regard, the MCCB programme is unique within the German academic landscape and should help bridge the evolving needs of the high-growth pharmaceutical industry.

#### **Course Details**

Course	organisation	

All programmes are individually structured. Every student is assigned to an academic adviser. The goal of academic advising is to provide detailed information to students concerning the programme of study and to help students manage their time at university to their best advantage.

#### International elements

- International guest lecturers
- Training in intercultural skills
- International comparisons and thematic reference to the international context
- Language training provided
- Integrated study abroad unit(s)

### Integrated study abroad unit(s)

The fifth semester includes a mobility window for study abroad options.

#### Integrated internships

The internship programme is a core element of Constructor University's employability approach. It includes a mandatory internship (minimum eight weeks full-time), which provides insight into the labour market as well as practical work experience related to the respective area of study. Successful internships may initiate career opportunities for students. For more information, please contact the Career Services Center (https://constructor.university/student-life/career-services).

### Course-specific, integrated German language courses

No

#### Course-specific, integrated English language courses

No

### **Costs / Funding**

Tuition fee	s per	semester	in
EUR			

10,000 EUR

### Additional information on tuition fees

#### **Services**

#### Possibility of finding parttime employment

We offer a limited number of student jobs on campus as well as support in finding student jobs off campus.

#### Accommodation

Constructor University offers **on-campus** accommodation that includes room and board (full meal plan). This accommodation is offered to **undergraduate and International Foundation Year students**. The fee for one academic year (nine months) is 8,000 EUR.

Constructor University offers a variety of off-campus student housing options for graduate students in Bremen. You can reserve accommodation through Constructor University and take advantage of our housing support services, flexible lease terms, and full campus amenities. The fee for accommodation for one academic year (nine months) is 4,500 EUR.

Generally, the cost of housing in Bremen can be considered affordable compared to other German cities. Private rooms range from 300 to 500 EUR per month.

#### Career advisory service

The Constructor University Career Services Center accompanies students through all stages of their career development in order to enable them to become responsible leaders of tomorrow.
