Master's degree

Overview

| | |
|--|--|
| Degree | Master of Science (MSc) |
| Teaching language | <ul style="list-style-type: none">English |
| Languages | English |
| Full-time / part-time | <ul style="list-style-type: none">part-time (study alongside work) |
| Mode of study | More than 50% online |
| Programme duration | 6 semesters |
| Beginning | Winter semester |
| Application deadline | <p>The distance learning programme starts in the winter semester (October) of every year. The application phase usually opens in mid-May of the respective year. For information on the admission requirements and the application process, please visit our website:</p> <p>https://fernstudium.rptu.de/fernstudienangebote/management-finanzen-und-recht/financial-engineering</p> |
| Tuition fees per semester in EUR | 1,990 EUR |
| Additional information on tuition fees | At the moment, the tuition fees amount to 1,990 EUR per semester. As of now, the one-time fee for the Master's thesis amounts to 720 EUR. |
| Combined Master's degree / PhD programme | No |
| Joint degree / double degree programme | No |
| Description/content | <p>In the financial and insurance sectors, an increasing importance is being placed on in-depth knowledge of and expertise in modern financial mathematics and actuarial science as well as the ability to apply these statistically and numerically.</p> <p>The distance learning programme is aimed at graduates of mathematics or other subjects with significant proportions of mathematics who wish to acquire a detailed understanding of financial mathematics.</p> |

Examples of topics the modules focus on include:

- Financial mathematics
- Interest rate models
- Insurance mathematics
- Financial statistics
- Risk measures and rating systems
- Economics of banking
- Financial decision making
- Computational finance

For interested mathematicians with professional experience who wish to acquire a deeper understanding of financial mathematics in a focused one-year programme without obtaining a (further) Master's degree, we offer the distance learning programme in "[Applied Financial Mathematics](#)".

Course Details

| | |
|---|--|
| Course organisation | The teaching-learning format consists of comprehensive, scientifically sound and practice-oriented self-study materials that have been developed by experts especially for distance learning, an online campus as an interactive learning platform, and on-campus phases to consolidate the knowledge that is acquired through self-study in theory and practice. Mandatory on-campus phases take place once per semester over a (long) weekend in Kaiserslautern. |
| A Diploma supplement will be issued | Yes |
| International elements | <ul style="list-style-type: none">• Specialist literature in other languages |
| Course-specific, integrated German language courses | No |
| Course-specific, integrated English language courses | No |
