Meghana D. Student

I had a really great time in Kassel. The engineering lectures and courses at the IWU were thrilling. It was good to gain insight into the numerous disciplines of engineering. For instance, we visited the "Viessmann-Werke" and inspected their biogas plants. We saw modern wind turbines nearly everywhere – Germany is definitively a lot more developed than other countries in terms of green energy. I really want to return to Kassel to pursue an internship at a German company!
