Description/content	Would you rather click on online ads than block them? Do you love to develop both communication

strategies and creative solutions? Are you interested in design and copy writing?

Then the BA programme in Advertising & Brand Design is exactly your thing. This programme combines a theoretical background, strategic thinking and the development of big ideas with the creation of all different kinds of adverts. This particular combination of modules and courses in the BA in Advertising is unique not only in Berlin, but in all of Germany.

This Bachelor's programme educates students in the diverse fields of advertising, as well as, the related fields of marketing, consumer behaviour and market research. The curriculum brings together empirical research, brand planning and innovation strategies on the one hand and visual, verbal and audiovisual communication on the other.

Solid theoretical knowledge is balanced with practical projects. The individual projects are based on actual briefings, contributed directly by advertising agencies, commercial enterprises or cultural and social businesses. Furthermore, all professors and teachers have a strong industry background and are continuously active in their individual fields.

This internationally recognised BA programme in Advertising & Brand Design prepares students for careers in advertising agencies, marketing and advertising departments as well as in media companies and cultural businesses. You will also be able to access numerous postgraduate and Master's programmes.

Angelika Yakymiv Student

We have people from all over the world in our class. We have a flexible schedule, so we have a lot of free time for internships or other projects aside from university. Our teachers treat us students as equals. On top of that, the university supports our ideas. We have access to photo studios, professional equipment and highly qualified staff that is ready to help. We also have a great location at Moritzplatz.

Campus Tour - Berlin School of Design and Communication

Our staff gives you a little tour of our most important and used facilities on our campus of the Berlin School of Design and Communication. Our Academic Director Prof Bettina Borchardt also gives you a little insight into our CORE Learning Principle and mentions a few of our study programmes.

SRH Universities

Our campuses in Berlin, Hamburg and Dresden

© SRH Berlin University of Applied Sciences

SRH Berlin University of Applied Sciences is a state-accredited university that offers Bachelor's, Master's and MBA programmes in English and German.

Our six schools in Berlin, Dresden and Hamburg combine modern management and entrepreneurship, hospitality, media and creative industries, technology and IT, music and sound design in modern study programmes.

All schools focus on hands-on project work in small teams, an individual learning experience, and personal supervision by lecturers with real business experience.

With its more than 2,000 students from 100+ countries, SRH Berlin University of Applied Sciences is one of the most international universities. In addition to an international atmosphere, our students enjoy the opportunity to get in touch with industry partners and create a professional network through internships and company projects. We offer a wide range of services to support you in finding an internship, organising a semester abroad, and taking care of important tasks during your studies. With this support and environment, our students are prepared for careers in different industries around the globe.

The university belongs to the SRH Holding, a non-profit organisation with its headquarters in Heidelberg. As a leading provider of educational services, SRH operates universities, schools, and professional training centres. SRH Berlin is one of seven universities within the group with more than 14,000 students.

University location

With its population of 3.7 million residents, **Berlin** is the German capital, the largest city in Germany and the second most populous city in Europe. Apart from being a hub for higher education and research, the city is very multicultural: people from 190 nations live here, 20% of its residents come from abroad and every one in three Berliners is a first-generation or second-generation immigrant. Students in Berlin benefit from a high quality of life and a huge range of recreational activities: festivals, museums and sports events are seen everywhere. Additionally, a third of the city area is composed of parks, rivers and lakes. Berlin is a centre for politics, media and science, and it is renowned for its culture and arts scene as well as its buzzing nightlife. It is rich in history and historical monuments and has a well-connected public transport system that students can use with their discounted public transport tickets. Well-known for its innovation capacity, the German capital has a vibrant start-up scene and is known as a start-up hotspot in Europe. In addition, Berlin's low living costs and moderate rental prices, compared to other capital or European cities, make the city very attractive for both international and domestic students.

Dresden is a perfect study location. Not only is the city of art and culture a popular tourist destination with its many famous sights, but it has also developed into one of Germany's strongest and most dynamic economic locations over the past few years. As living costs and rental prices are still relatively low, Dresden is a favourable city for students from around the world. If you add the vast array of cultural events, the diverse nightlife and the city's beautiful location in the Elbe valley, one might not be surprised that Dresden is a great place to live and study in.

Hamburg is a city that is green, lively and economically strong. Located close to rivers and the ocean, Hamburg has more bridges than Venice and is part of the second largest metropolitan region in Germany. Compared to other cities in Germany, Hamburg has moderate living costs, a high standard of living and a secure infrastructure for students. The city's continuous growth makes it one of the most important and largest trade, economic and logistics centres in north-western Europe. International companies and agencies from the aviation, life science, health care, renewable energy and creative industries are based in Hamburg. Young professionals and university graduates benefit from attractive career opportunities in a growing economy and within the IT, media, retail, logistics and renewable energies industries.
