Master's degree

Technical Management (MEng)

Technical University of Applied Sciences Wildau • Wildau

Overview

Degree	Master of Engineering in Technical Management
Teaching language	<ul style="list-style-type: none">English
Languages	English (100%)
Full-time / part-time	<ul style="list-style-type: none">full-time
Programme duration	3 semesters
Beginning	Summer semester
Additional information on beginning, duration and mode of study	Lectures are held on site.
Application deadline	15 December 2024 until 15 January 2025 : for applicants holding an international degree (via uni-assist) 15 December 2024 until 31 March 2025 : for applicants holding a German degree (application via TH Wildau online portal)
Tuition fees per semester in EUR	None
Combined Master's degree / PhD programme	No
Joint degree / double degree programme	No
Description/content	<p>More and more, our dynamic economies require people who can work across different disciplines rather than specialists. Future managers and leaders must have a wide range of skills and be able to take a holistic approach while also being able to make clear commercial decisions.</p> <p>The goal of our Master's in Technical Management is to equip highly qualified interdisciplinarians</p>

with mathematical, technical and business, and economic expertise.

- Students will gain skills in the following areas:
 - Production Management / Production Logistics
 - Intralogistics
 - Transportation Logistics / Transportation Planning and Control
 - Interdisciplinary tasks
- Students will develop their abilities to clearly define, analyse, and solve complex problems and tasks
- Students will be prepared for management tasks (in particular, result-oriented leadership and responsibility as well as managing personnel)

Course Details

Course organisation	Study programme <ul style="list-style-type: none">• Focus on engineering• Additional business administration and IT modules• Specialisations in the following areas:<ul style="list-style-type: none">◦ Logistics◦ Production◦ Transportation (systems) Structure and duration of studies <ul style="list-style-type: none">• First semester: lecture programme for all students• Second semester: specialisations• Third semester: Master's thesis <p>» PDF Download</p>
A Diploma supplement will be issued	Yes
International elements	<ul style="list-style-type: none">• International comparisons and thematic reference to the international context
Description of other international elements	<ul style="list-style-type: none">• Deep understanding for complex problems in terms of planning, organising, controlling, and leading in the context of global companies and organisations• Inclusion of case studies and comparisons• Global site strategies• Intercultural management
Diverse intercultural background of students	TH Wildau's student population includes 20.4% students holding a non-German citizenship. More than 70 nations are represented on campus. Our professors and teaching staff members are international as well, covering countries such as the UK, Argentina, Belgium, Ukraine, Russia, El Salvador, Kazakhstan, China, Austria, France, and many more.
Course-specific, integrated German language courses	No
Course-specific, integrated English language courses	No

Costs / Funding

Tuition fees per semester in EUR	None
Semester contribution	TH Wildau charges a contribution of approx. 350 EUR per semester. This includes a ticket for unlimited free public transport in the Berlin-Brandenburg Region for the corresponding semester. You can find more details about the composition of the semester contribution in past semesters here: https://en.th-wildau.de/study/studying-in-wildau-a-z/reregistration/ .
Costs of living	Approx. 934 EUR per month to cover personal expenses (depending on the accommodation)
Funding opportunities within the university	No

Requirements / Registration

Academic admission requirements	Bachelor's degree, preferably in Logistics, Industrial Engineering, or Transportation Systems Engineering
Language requirements	Very good English (C1 – Common European Framework of Reference for Languages) No German language skills are required, but they are beneficial for daily use.
Application deadline	15 December 2024 until 15 January 2025 : for applicants holding an international degree (via uni-assist) 15 December 2024 until 31 March 2025 : for applicants holding a German degree (application via TH Wildau online portal)
Submit application to	For applicants holding an international degree , submit the application via uni-assist: https://www.uni-assist.de/en/ . For applicants holding a German degree , submit the application via TH Wildau portal: https://en.th-wildau.de/study/application/degree-programmes/online-application/ .

Services

Accommodation	Finding suitable accommodation is an important part of your preparation for living and studying in Wildau. We strongly recommend to start looking for accommodation even before receiving your acceptance letter . You can find an overview of the available options in Wildau and the surrounding area here: https://en.th-wildau.de/study/prepare-your-stay/accommodation/ .
Support for international students and doctoral candidates	<ul style="list-style-type: none"> • Welcome event • Buddy programme • Help with finding accommodation

**General services and support
for international students
and doctoral candidates**

- Orientation week for international students (before the semester starts)
- Official welcome ceremony
- International week
- International afternoon

Christian Schulz
BA

Studying Technical Management at the TH Wildau was a great final chapter of my academic career. The focus was more on practical learning than on theoretical lectures. Students are encouraged to participate.

TH Wildau – campus view

© Matthias Friel / TH Wildau

Technische Hochschule Wildau – Technical University of Applied Sciences Wildau(TH Wildau) is one of four universities of applied sciences in the state of Brandenburg. By combining the familiarity of a small compact campus with its proximity to the international metropolis of Berlin, TH Wildau offers the best of both worlds.

A modern campus university on Berlin's doorstep

The university opened its doors in 1991 with just 17 students in the mechanical engineering degree programme. Today there are around 3,300 students, ensuring that TH Wildau keeps its familiar atmosphere. On a modern campus with a direct rail connection to Berlin, aspiring academics enjoy an ideal environment for their studies in a range of disciplines covering the natural sciences, engineering, economics, law, business administration and management.

Practical and application-oriented

The practical orientation of the degree programmes is one of the distinctive characteristics of TH Wildau. Students can carry out practical exercises and experiments with top-quality laboratory and computer technology. An optimal study environment allows creativity and enthusiasm for research to flourish.

Close interaction between the university and the economy

Its potential for scientific innovation and development is what makes TH Wildau a desirable partner for innovative small and medium-sized businesses, as well as large international firms. Collaborations include input into designing the curricula for the degree programmes, to project work for students within the companies and joint research activities. This allows students to gain valuable practical experience in various fields even before they have completed their studies, thus making them an attractive choice for businesses when starting their careers.

Excellent international networking

An international and intercultural outlook shapes each working day at the university. Young people from over 80 countries around the world study at TH Wildau. About one in six students comes from abroad.

TH Wildau actively promotes international exchanges for students and researchers. It is for these reasons that the university cooperates with more than 75 partner universities around the world. TH Wildau has contacts through its traditional partnerships in Eastern and Southern Europe as well as through links to Asia, Latin America, the Arab world, and Africa. Students have a wide range of attractive options for spending a semester studying or working abroad, for learning foreign languages and interacting with other cultures.

A strong research university

TH Wildau has a strong research focus. In comparison to other small universities of applied sciences, it has done exceptionally well in obtaining third-party research funding. Academics are working in over 40 research groups dealing with the latest topics in applied and fundamental research. This has given the university its reputation as a centre of excellence in various scientific disciplines.

University location

TH Wildau is located approximately 45 minutes south-east from the centre of Germany's capital city, Berlin.

Green, interconnected campus

TH Wildau is a campus university. The teaching and administration buildings, dining room, and library are all located on an interconnected campus by the Wildau S-Bahn train station, with direct access to Berlin. This makes studying in Wildau exceptionally convenient.

Modern infrastructure with tradition

The campus is located on a historic industrial and manufacturing site. Where once locomotives were built in vast production halls, today people study, teach, and conduct research. Some of the teaching and laboratory facilities of TH Wildau have been housed within these historic walls, while for others, new buildings have been constructed. This extraordinary mix of old and new continues to attract students and visitors with a passion for architecture.

Prize-winning university library

TH Wildau has a state-of-the-art library in an architecturally dazzling industrial production hall. In 2012, it was nominated "Library of the Year", and not without reason. With its wide range of forward-looking services, this cutting-edge library is setting new standards by developing novel technical solutions for library organisation. Last but not least, the library is open for student access 24 hours a day, 365 days a year.
