Funding opportunities within the university	No

Requirements / Registration

Academic admission requirements	<p>Applicants with one of the following Bachelor's or Professional Bachelor's degrees automatically fulfil the academic requirements for admission to the MSc programme in Sustainable Forest and Nature Management:</p> <ul style="list-style-type: none"> • Biology (biologi), Geography and Geoinformatics (geografi og geoinformatik) or Natural Resources (naturressourcer) from University of Copenhagen • Forest Sciences and Forest Ecology, Ecosystem Management or Ecosystem Sciences from University of Göttingen • Forest Science or Biology from Swedish University of Agricultural Sciences • Forestry and Environmental Sciences from University of Florence, Marche Polytechnic University, University of Naples Federico II, University of Basilicata, Palermo University, University of Turin or University of Tuscia • Forestry and Environmental Technologies from University of Molise or University of Padova • Biology, Geography or Agrobiography from Aarhus University. • Biology or Geography from Aalborg University
---------------------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

- Biology, Technological and Socio-Economic Planning (TekSam-Miljøplanlægning), Natural Sciences or Geography from Roskilde University
- Natural Sciences (international Bachelor's degree) from Roskilde University
- Biology from University of Southern Denmark
- Forest and Landscape Engineering (skov- og landskabsingeniør) or Urban Landscape Engineering (urban landskabsingeniør) from University of Copenhagen

Applicants with a Bachelor's degree, Professional Bachelor's degree or equivalent from Danish or international universities other than those listed above are qualified for admission to the MSc Programme in Sustainable Forest and Nature Management if the programme includes at least one of the following:

- 20 ECTS within forestry
- 20 ECTS within biology
- 20 ECTS within ecology
- 20 ECTS within natural resource management
- 20 ECTS within nature management
- 20 ECTS within physical geography

The faculty may also admit applicants who, after an individual academic assessment, are deemed to possess educational qualifications equivalent to those required above.

The admission committee will evaluate your application individually. This means that they will evaluate whether your degree meets the admission requirements based on its academic content.

You can only get an answer to whether or not your degree meets the admission requirement by applying for admission at the MSc programme. Only the admission committee can evaluate whether you are qualified or not. They only do this once they have received your application.

[Click here to learn more about admission requirements and the application procedure.](#)

<p>Language requirements</p>	<p>You are required to document your English proficiency.</p> <p>Click here to learn more about ways to document English proficiency based on your educational background.</p>

<p>Submit application to</p>	<p>Please apply via our SUFONAMA website (for which the University of Copenhagen is responsible), fill out the online form, and wait for our reply.</p> <p>https://sufonama-em.eu/application/</p>

Services

Possibility of finding part-time employment

Students may find a part-time job in local businesses or on campus, as long as their study performance is not affected. We do not recommend planning to fully finance your studies in

Germany through a part-time job.

Please note that restrictions may apply with your scholarship or visa. Non-EU students have special regulations.

More information on student jobs in Germany can be found [here](#).

A number of student jobs is also available at the university. They are announced on the following website: www.stellenwerk-goettingen.de.

Some proficiency in German may be indispensable to your job search. Non-EU students are permitted to work a maximum of 120 full days (240 half days) per year.

Accommodation

The Accommodation Service of the International Office supports international students who are enrolled at the University of Göttingen in finding accommodation and serves as a point of contact for related queries. The Accommodation Service also publishes suitable offers from private landlords in Göttingen and collaborates with the Student Services ("Studentenwerk"). As the number of available accommodation options in Göttingen is limited, it is highly recommended to contact the Accommodation Service as early as possible.

For further information, please see the following link: <https://www.uni-goettingen.de/en/617883.html>.

Career advisory service

The Career Service of the university offers individual support for the job entry. For international students aiming for a career entry in Germany, the Career Service provides workshops, online learning modules, and a qualification programme. <https://www.uni-goettingen.de/en/292.html>

The "Start Guides" project also offers assistance in developing and realising individual career perspectives in Germany. <https://www.uni-goettingen.de/en/637664.html>

If you are interested in founding a company, start-up support is offered! The university supports you with advice, funding, qualification formats and network contacts. <https://www.uni-goettingen.de/en/en/1279.html>

Rafael Leme De Paulo
BSc

Leaving Brazil to pursue my studies in Germany and Italy was an extraordinary opportunity. It allowed me to immerse myself in two well-known universities, broaden my technical knowledge with theory and field trips and establish connections all around the world. I am immensely grateful for this incredible journey, which not only advanced my academic pursuits but also enriched my personal growth.

Sustainable Forest and Nature Management: Welcome to SUFONAMA, Welcome to Göttingen

The Erasmus Mundus Joint Master's programme in SUFONAMA is a two-year world-class integrated programme aimed at qualifying graduates for dealing with the enormous challenges in sustainable management of natural resources, namely the challenge of management of forests and nature areas in an integrated landscape context.

University of Göttingen

University of Göttingen – Committed to Excellence

Founded in 1737, the University of Göttingen is a research-driven university of high international standing. It is renowned for its diverse range of academic disciplines, research-oriented teaching, and outstanding scientific environment in which more than 40 Nobel laureates have studied, taught, or pursued their research. With about 28,500 students, 16 percent of whom are international students, and more than 210 degree programmes, the university is one of the largest in Germany.

Variety of study programmes

The University of Göttingen offers a vast variety of academic programmes for undergraduate and graduate studies. Internationally renowned expert researchers teach in more than 40 academic disciplines. More than 40 full-time undergraduate and graduate programmes are taught entirely in English. Two international fast-track MSc/PhD programmes (Molecular Biology and Neurosciences) prepare students for unique careers in scientific research. Additionally, a growing number of double degree programmes with prestigious international universities are available.

<https://www.uni-goettingen.de/en/3811.html>

Guidance, supervision, and study conditions

Students are given comprehensive advisory and supervisory support in all phases of their studies. Since advice and guidance are crucially important for the successful outcome of a university career, the University of Göttingen is constantly improving and extending its performance in this area.

<https://www.uni-goettingen.de/en/47239.html>

Excellent library

The Göttingen State and University Library (SUB Göttingen) maintains a top position among German academic libraries, with a holding of over nine million books, journals and other media and offering a broad range of services for study and research. The library plays a leading

role in a large number of national and international projects involving the optimisation of literature and information provision as well as the establishment and development of digital research and information infrastructures.

<https://www.sub.uni-goettingen.de/en>

Alumni worldwide

As a member of the alumni network, you will continue to be part of the international "University of Göttingen Family" even after you have finished your studies. The Alumni Office currently connects more than 40,000 alumni from all over the world and provides them with current information and ongoing projects at the university and in the city of Göttingen. In addition, the alumni association offers various events and services for students and alumni related to careers and networking. One such initiative is their workshop series called "alumni4students," where you will have the chance to contribute your expertise.

University location

Göttingen – a good place to live and study

Göttingen, with a population of approximately 130,000, is a city where tradition and innovation complement one another perfectly. The excellently preserved timber-framed houses in the historic quarter and the University of Göttingen with its 28,500 students create a lively atmosphere that would be hard to find elsewhere.

The university departments and buildings are mainly located on two campuses and are within easy walking or cycling distance from each other. Accommodation for 4,500 students and excellent canteens run by the student services organisation ("Studentenwerk") allow for a high quality of life at a low cost.

The university cooperates closely with non-university research institutes in Göttingen. Together, they form the "Göttingen Campus" – an alliance of cutting-edge research institutes. This includes four Max Planck Institutes and the Göttingen Academy of Sciences and Humanities in Lower Saxony as well as the German Primate Center and the German Aerospace Center. The Göttingen Campus has created an environment of openness in which students at all levels (Bachelor's, Master's or PhD) as well as experienced researchers can develop fresh and innovative ideas. Numerous scientists and scholars from the non-university research institutes lecture at the university, and joint professorial appointments create bridges between the university and campus partners. This structure supports the reputation of the University of Göttingen as one of the most successful research-oriented universities in Germany.

Situated in the geographical centre of Germany and Europe, Göttingen has excellent travel connections: Berlin, Hamburg, and Frankfurt are only a two-hour train ride away. But you don't have to go that far to take a break; Göttingen itself offers many options for recreational activities. The city boasts three theatres and a symphony orchestra. Many cinemas, cafés, and pubs provide numerous opportunities to meet like-minded people and enjoy yourself. Alternatively, you can play an active role in the student union, which sponsors many cultural and recreational events. Last but not least, the city and the university offer a variety of activities for sports enthusiasts. The "Hochschulsport Göttingen" (University Sports Centre) is one of the biggest in Germany and offers a wide range of disciplines and gyms for members of the Göttingen Campus. More than 150 different sports with an indoor pool, climbing centre, fitness studio, and several outdoor sports fields are offered at an extremely reasonable price.
