Description/content

In cooperation with the Medical Faculty of RWTH Aachen University and the Clinic for Operative Dentistry, Periodontology and Preventive Dentistry of the University Hospital Aachen, RWTH International Academy offers the MSc Periodontology postgraduate Master's programme. Scientific director of the programme is Professor Dr med dent Andreas Braun, director of the Clinic for Operative Dentistry, Periodontology and Preventive Dentistry at the Aachen University Hospital.

This Master's programme is designed as a post-graduate continuation of a first professional university degree in the field of dentistry and aims at in-depth, professional specialisation in the treatment of periodontal diseases. In the course of study, students acquire practical training in

diagnostics, prevention and non-surgical treatment of periodontal diseases. In addition, students receive in-depth, practical training in operative procedures (periodontal surgery).

The course offers dentists the opportunity to become highly qualified specialists in the area of periodontology.

Course Details

Course organisation

A blended-learning concept, which incorporates digital teaching and learning with short attendance blocks, enables participants to receive the highest level of academic and practical training whilst limiting time away from home and work.

The Master's programme includes eight modules over one year. Each module includes live online seminars and two days of hands-on training and lectures in Aachen, Germany. The attendance days are organised in blocks. In order to optimally integrate this Master's degree into your work routine, each module is supported by digital teaching and learning content that can be accessed at flexible times. The last semester is dedicated to the preparation and compilation of a Master's thesis (module 9) on a periodontal disease related topic and a clinical case review.
