Programme duration	7 semesters
Beginning	Summer semester
Application deadline	Applicants with foreign certificates: 30 November Applicants with German certificates: 15 January
Tuition fees per semester in EUR	None
Joint degree / double degree programme	No

Description/content

StREaM is an interdisciplinary, international Bachelor's programme that combines engineering and economics, with a special focus on sustainability as an overlapping theme. On the one hand, students acquire basic knowledge in engineering and in economics. On the other hand, they gain knowledge and understanding of the principles of sustainable development as well as its importance for the economy and industry, the environment and the society in Germany as well as worldwide.

Students acquire skills and competencies that allow them to do the following:

- identify and analyse problems that intersect engineering and economics, and work with others to develop solutions to these problems
- plan, carry out and evaluate sustainability projects, while taking into account engineering,

- economic, ecological, societal and cultural perspectives
- communicate, collaborate and cooperate successfully within interdisciplinary and intercultural contexts, also while using digital tools
- reflect upon their development of personal competencies and continually improve themselves

Course Details

Course organisation	<p>Sustainability as an overlapping theme</p> <p>Fundamentals of Engineering and Environmental Sciences, e.g., in the following:</p> <ul style="list-style-type: none"> • Materials and Production Engineering • Ecology and Resources • Renewable Energy Systems <p>Fundamentals of Economic Science, e.g., in the following:</p> <ul style="list-style-type: none"> • International Accounting and Finance • Production Management and Global Supply Chains • Business Development <p>Acquisition of transversal competencies through:</p> <ul style="list-style-type: none"> • Intercultural Projects and Teamwork • German as a Foreign Language • Ethics and Social Responsibility • Personal Development and Elective Modules • Internship <p>» PDF Download</p>
A Diploma supplement will be issued	Yes

Application deadline	Applicants with foreign certificates: 30 November Applicants with German certificates: 15 January
Submit application to	Application with foreign certificates via https://www.uni-assist.de/en/ Application with German certificates via https://onlinecampus.h2.de

Services

Possibility of finding part-time employment

- Qualified students can work as academic assistants at institutes of our university or at companies in the region.
- A comprehensive collection of links to miscellaneous job websites is offered by the [Career Center](#).
- All relevant information on working while you are a student is available on the website of the [German Academic Exchange Service \(DAAD\)](#)

Accommodation

Accommodation is available from the "Studentenwerk Magdeburg" or on the private market. Students must organise their own accommodation. The university's International Office provides helpful information on how to find accommodation.

Career advisory service

Please consult the website of the [Career Center](#).

Support for international students and doctoral candidates

- Welcome event
- Buddy programme
- Tutors
- Specialist counselling
- Cultural and linguistic preparation
- Pick-up service

Supervisor-student ratio

Students benefit from a very good student-to-faculty ratio.

Studying in Germany at Magdeburg-Stendal University of Applied Sciences

Our graduate Norma shows you the benefits of studying in Germany at Magdeburg-Stendal University of Applied Sciences.

Studying in green places

© Bastian Ehl

A young university

Founded in 1991, the university has long gained a reputation for its well-rounded academic education programme and motivated student body. Interested students can choose from around 50 study programmes taught at three departments in Magdeburg and two departments in Stendal. Around 130 professors guarantee a very good student-to-faculty ratio, with approximately 3,700 students in Magdeburg and 1,800 in Stendal.

Innovative degree programmes

If you are considering to study in a foreign country like Germany, you probably enjoy the new and exciting. Perfect! The university offers new and exciting fields of study like Applied Childhood Studies, Safety and Hazard Prevention, and Sign Language Interpreting.

Practice-oriented studies

If you have experienced overly theoretical lectures in secondary school, you probably prefer learning “hands on”. Excellent! The university focuses on practice-oriented studies that connect in-classroom learning with practical experience.

Green campuses

If you are about to start your student life, you probably are thinking about having fun. Rock on! Magdeburg and Stendal are great places for students. The student committee organises parties, the sports office keeps you active, and the green campuses are perfect for chilling out after class.

Low costs

If you are about to start your student life, you probably are thinking about your student budget. No problem! The semester fee is affordable, and it also includes public transport. The housing in Magdeburg and Stendal is low-price and of good quality.

Language courses and cultural events

If you are reading this, you probably have already learned at least one foreign language, namely English. Great! The university provides ample opportunity for expanding your horizons through language courses and cultural events.

In the heart of Germany

The central location of both sites within Germany enables rapid connections to Berlin, Hanover or Leipzig. The location is ideal for excursions to these cities!

 University location

With 1,200 years of rich and colourful history, Magdeburg is one of the oldest cities in the new Laender of the former Eastern Germany. There are only few cities in Central Europe which compare to Magdeburg in terms of its eventful historical past.

Magdeburg is a student city with almost 20,000 students which offers a wide range of activities and discounts for students!

The sights and attractions that can be found in Magdeburg reflect the **eventful past and present** of the metropolis on the river Elbe. Come and visit the capital city of the German State of Saxony-Anhalt for yourself and explore a **fascinating location** situated right at the heart of Germany.

Magdeburg Cathedral, which is dedicated to St. Maurice and St. Catherine and the **Art Museum in the Monastery of Our Lady** are just two examples of some of the city's most famous sights and attractions. Therefore, we strongly recommend that you pay these religious buildings a visit during your time in Magdeburg.

Magdeburg is not only home to a number of historical sights and landmarks, but also to **an multitude of modern attractions** such as the **Magdeburg Waterway Junction**, which boasts the world's longest canal bridge, and the **"Green Citadel of Magdeburg"**, a building designed by the famous artist Friedensreich Hundertwasser.

You should also be sure to pay a visit to the **old market square (Alter Markt)**, where you can view the **"Magdeburg Horseman" statue**, which is believed to depict Emperor Otto the First, and the Old Town Hall.

The [city of Magdeburg's website](#) provides an excellent overview of all of the sights and attractions in Magdeburg that are well worth a visit.
