Joint degree / double degree programme	No
Description/content	The international 18-month full-time accredited Master of International Trade programme is focused on developing proactive, intercultural managers, consultants and entrepreneurs for the global market – leaders in today's dynamic business arena.

Our curriculum in general management with an emphasis on international trade is a blend of theoretical knowledge in core fields like Economics, Management, Accounting, Finance, Marketing, Law, Statistics and practical elements such as Project Management, Entrepreneurial Management, Leadership and Management Skills. In addition to the professional knowledge that is imparted, we emphasise the development of social, communication and team-working competencies in an intercultural environment to build up the mindset and skill sets to lead teams in international markets worldwide.

Modern interactive teaching methods such as case studies and e-learning are combined with multimedia tools to impart knowledge and skills to apply cutting-edge concepts for developing creative solutions to real, relevant and current business problems and scenarios. The international faculty includes academics and professionals from diverse industries. This further accentuates the international and practical orientation of our curriculum.

The diversity of our students in terms of their internationality – spanning the globe and diverse academic and career backgrounds ranging from economics to technical studies – is a critical factor in creating global leaders, be it international managers, consultants or entrepreneurs.

Services

Possibility of finding part-time employment	<p>Visa regulation limitations: Non-EU students should be aware that student visas entail strict regulations regarding work parameters.</p> <p>In town / off-campus: There are limited part-time job opportunities in the town for which proficiency in the German language will be a critical factor.</p> <p>University: The university does not generally offer jobs. However, professors might offer student assistant jobs to extremely good students (based solely on performance and only after the first semester).</p> <p>Internships: Internships are not mandatory for this programme, but they can be undertaken during the semester holidays.</p>
Accommodation	<p>Generally, there are two ways of finding a student apartment in Bernburg. You can request a spot in one of the residence halls or look for an apartment on the private market.</p> <ol style="list-style-type: none"> 1. Residence halls: Accommodation near the campus is offered by the "Studentenwerk Halle" (Student Services). It is recommended that new students contact "Studentenwerk Halle" before coming to Bernburg. Please visit the website: http://www.studentenwerk-halle.de. Only online applications are accepted, and they need to be submitted to https://tl1host.eu/SWHAL/#home. 2. Private accommodation is usually outside of the Strenzfeld campus. You can use this platform to find a private room or apartment: https://www.wg-gesucht.de/en/ <p>Programme advisers will assist students in finding appropriate accommodation on the private market. For more detailed information, please consult our website: https://www.hs-anhalt.de/en/international.html https://www.hs-anhalt.de/en/life/bernburg/housing.html</p>
Career advisory service	<p>The MBA Network: Our diverse international student body, faculty, corporate partners and academic co-operations as well as integrated projects, workshops, excursions, symposiums in the curriculum and alumni work form an interconnected network that supports and guides students to establish contacts to create opportunities and enhance their career prospects in diverse sectors</p>

worldwide.

Career Service: The university Career Service offers our international students a wide range of tailor-made services for a successful career start in Germany. It guides students in designing a professional curriculum vitae, supports with further qualifications and helps to develop new career perspectives. The Career Service is also a point of contact for companies and institutions looking for highly qualified staff with an international background and wanting to establish contact with students at an early stage.

Support for international students and doctoral candidates

- Welcome event
- Buddy programme
- Specialist counselling
- Visa matters

Dr Oksana Vasylenko
MBA (Batch 2019)

My motto, “learning, developing, improving, changing and moving”, led me to the MBA International Trade programme, opening up great opportunities in Germany. Following my Bachelor's, Master's and PhD, I worked as an associate professor in Ukraine.

My move to Germany in 2019 enabled me to study in this programme – an intensive, productive, and practically-oriented experience with experts in the field and excellent professors, leading me to my current job as a researcher and project coordinator.

Anhalt University of Applied Sciences

The Anhalt University of Applied Sciences is situated in central Germany and thus in one of the liveliest cultural and economic regions. Traditionally, particular importance is placed on the combination of science and innovation here. With over 7,700 students in seven departments and the Landesstudienkolleg, we are the biggest University of Applied Sciences in Saxony-Anhalt today. At three locations in Bernburg, Dessau and Köthen, we unite innovative teaching and research in 65 Bachelor and Master's degree programmes.

Courses of study at the Anhalt University of Applied Sciences are practice-oriented and offered at the highest level. Application-oriented

project work, international internships and practice-oriented final theses in collaboration with businesses offer the opportunity to put innovation to practical use. A shorter study duration allows for early entry into a career. Bachelor's degree studies can be completed after six semesters, and a Master's degree can be conferred after a further four semesters. New teaching methods and e-learning round off our high-quality training and further education. In addition, our dual courses of study and international research offer students a multitude of possibilities for successful entry into a career both nationally and internationally.

In the field of research, the Anhalt University of Applied Sciences occupies a premier position among German universities and is well placed for attracting third-party funding. Our successful application and transfer-oriented research projects extend across the whole of central Germany. Furthermore, thanks to our close contacts in numerous small and medium sized companies, many of our research findings and results are employed directly in practice. This is also of advantage to students, as practical studies lead to a seamless transition into the professional world and offer the best career prospects.

University location

Bernburg

Bernburg, a town on the river Saale and a regional hub of commercial, intellectual and cultural importance, has undergone an enormous transformation since the political turnaround in the GDR. From a grey centre of cement, soda, salt and serum industries, a hill and valley town radiating out from a renovated old town, where painstakingly restored monuments of cultural and historic interest cluster around Bernburg Castle, has emerged. The Bernburg community is tackling the theme of "Generating a Future in Education" as part of the IBA, thereby shaping a new cultural and educational landscape. The upgrading of secondary school provision is a particular priority. With this in mind, an education centre, the "Campus Technicus", is planned for a site in the heart of the town near the castle, theatre, library and music school. In addition to an all-day school, a space for use by the general public – the "Treibhaus" (greenhouse) – is also to be built. In this way, the town is to be restored to vitality and equipped for life-long learning.
