## PhD Programme in Health Data Sciences

Humboldt-Universität zu Berlin • Berlin

### Overview

Degree	PhD in Health Data Sciences
In cooperation with	QUEST Center for Responsible Research, Berlin Institute of Health Charité – University Medicine Berlin, Institute of Biometry and Clinical Epidemiology
Teaching language	<ul style="list-style-type: none"><li>English</li></ul>
Languages	The working language of the HDS PhD programme is English. The final dissertation must be submitted in English, and all required HDS coursework will be completed in English. Many of the elective offerings are also in English, and it is possible to complete the HDS programme without any German language knowledge. German speaking students could also take courses in German for elective credit (as long as these are relevant to HDS and approved by the HDS PhD Board).
Full-time / part-time	<ul style="list-style-type: none"><li>full-time</li></ul>
Mode of study	Hybrid
Programme duration	6 semesters
Beginning	Winter semester
Application deadline	Please check the HDS PhD website in autumn 2024 for updated information on 2025 HDS PhD Programme admissions. The 2025 HDS PhD cohort will begin their studies on 1 October 2025.
Tuition fees per semester in EUR	None
Combined Master's degree / PhD programme	No
Joint degree / double degree programme	No
Description/content	<p>The goal of the multidisciplinary doctoral programme in Health Data Sciences for outstanding junior researchers is to provide a structured framework of studies, research, and teaching for promising scientists in the disciplines of Health Data Sciences (HDS).</p> <p>The programme places particular emphasis on preparing students for future careers at universities, non-university research institutions, and other scientific public or private institutions in the fields</p>

of biostatistics, epidemiology, meta-research, population health science, public health, and medical informatics.

The scientific coursework serves to deepen methodological knowledge, instil fundamentals of sound scientific research practice, and promote effective dissemination of knowledge through teaching. The programme has three main focus areas:

1. **Methodology:** Doctoral students attend courses in HDS domains to learn advanced health data sciences methods that they will later apply in a practical research setting for their individual research projects.
2. **Research:** Interactive seminars and workshops serve to support doctoral candidates in all stages of their individual research project work, which will ultimately result in three scientific publications.
3. **Teaching:** Under the guidance of experienced HDS faculty members, doctoral students prepare and teach courses focused on relevant topics.

---

## Course Details

---

### Course organisation

In total, HDS PhD students must earn 30 ECTS credit points throughout the three-year programme. These points are divided as follows:

- 18 credits come from three core required courses:
  - Research Proposal Seminar, which takes place during semesters one through two
  - Advanced Methods in Health Data Sciences, which takes place during semester three
  - Mentored Teaching of a Methods Course, which can be individually scheduled in the later semesters of the programme based on student and instructor availability
- 12 credits come from elective coursework that can be spread out over the course of the studies according to the student's preferences and in consultation with the supervisory team's recommendations.

In-person attendance is compulsory during semesters one and three.

### A Diploma supplement will be issued

Yes

### Certificates for specific modules are awarded

Yes

### International elements

- Courses are led with foreign partners
- Projects with partners in Germany and abroad

### Teaching/work obligations or opportunities

Under the guidance of experienced HDS faculty members, doctoral students are required to participate in a Mentored Teaching module to learn and hone their skills in didactics, curriculum development, information synthesis, and scientific communication. In this module, students will be involved in all aspects of a Master's level course in one of the HDS domains. Experienced university lecturer mentors will provide regular support and coaching as well as constructive feedback.

### Special promotion / funding of the programme

- DAAD

### Name of DAAD funding programme

DAAD Graduate School Scholarship Programme (GSSP)

Course-specific, integrated German language courses	No
Course-specific, integrated English language courses	No

## Costs / Funding

Tuition fees per semester in EUR	None
Semester contribution	The HDS PhD programme does not charge any tuition fees. Students, however, are required to pay registration fees every semester to be officially matriculated at the Charité and receive student benefits, such as discounted registration to conferences and the semester ticket for public transportation.
Funding opportunities within the university	No

## Requirements / Registration

Academic admission requirements	<ul style="list-style-type: none"> <li>• Proof of eligibility for a doctoral degree per the requirements outlined by the Charité – Universitätsmedizin Berlin ("Promotion eligibility")</li> <li>• Evidence of prior course work with professional relevance to Health Data Sciences (biostatistics, epidemiology, public health, meta-research, population health science, and/or medical informatics)</li> <li>• A strong command of the English language (details below)</li> <li>• Secured funding for the duration of the doctoral programme</li> </ul>
Language requirements	English Level B2 according to the Common European Framework of Reference for Languages (CEFR)
Technical equipment and programmes	Much of the programme coursework requires the use of statistical programmes. Most students will use R software, although some students will use other programmes, such as Python, Stata, or SAS.
Application deadline	Please check the HDS PhD website in autumn 2024 for updated information on 2025 HDS PhD Programme admissions. The 2025 HDS PhD cohort will begin their studies on 1 October 2025.
Submit application to	<a href="mailto:hds-phd@charite.de">hds-phd@charite.de</a>

## Services

Possibility of finding part-time employment	Please find relevant job portals on the " <a href="#">Funding</a> " page of the HDS PhD website.
---	--

Structured research and supervision	Yes
Research training / discussion	Yes
Support for international students and doctoral candidates	<ul style="list-style-type: none"><li>• Welcome event</li><li>• Visa matters</li></ul>
