Description/content	The Master's in Business Analytics programme is divided into different stages. At the beginning of

the programme, we will prepare you for your future research work and support you in the further development of your leadership skills. Building on this, you will deal with the essential issues of your field, consolidate newly acquired knowledge and grow as a leader.

Course Details

Course organisation

The programme consists of four semesters and includes several [cooperations with companies](#). You can organise the last two semesters according to your needs: either through a stay abroad at one of our approximately [200 partner universities](#), or an internship. The last part of the programme is intended for your final thesis.

We have designed the EBS Master's programmes to be flexible, depending on your level of knowledge, skills and goals.

Semester Abroad Track

The Semester Abroad Track comprises two semesters at EBS Universität, one semester at one of [our partner universities](#) abroad and concludes with the thesis.

Practice Track

Have you already gained sufficient experience abroad and would like to focus on practical experience? Then the Practice Track is perfect for you. This includes two semesters of study at EBS Universität, an intensive, long internship in the third semester and a final thesis.

German Track

An option developed explicitly for non-German-speaking students. In addition to the lectures, you will receive compulsory German lessons (Business and General) and will not go abroad in the third semester but stay at EBS in Germany. This enables you to improve your prospects for a career in Germany. In the fourth semester, you will complete your studies with your thesis.

Accelerated Track

Accelerate your career: If you meet the relevant requirements, you can shorten the Master's programme to two semesters.

Dual Degree

You can obtain another international degree (MBA or Master's) in addition to your EBS degree. Extend your study abroad at one of our partner universities by one semester and receive [a double degree](#). In this way, you will gain more expertise in a broader international context, and you will increase your global market value.

A Diploma supplement will be issued

Yes

International elements

- International guest lecturers
- Integrated study abroad unit(s)
- Specialist literature in other languages
- Language training provided
- Training in intercultural skills
- Projects with partners in Germany and abroad
- International comparisons and thematic reference to the international context

Integrated study abroad unit(s)

Semester Abroad Track

The Semester Abroad Track comprises two semesters at EBS Universität, one semester at one of [our partner universities](#) abroad and concludes with the thesis.

The foreign exchange aims to familiarise students with international research and teaching methods, enhance their language skills, and give them their first international practical experience through internships. In addition, foreign semesters contribute to the student's personal

development and intercultural competence.

Your exchange semester can be set up for general studies or for additional depth in an area of specialisation.

Dual Degree Track

As an EBS student, you will also have the opportunity to earn another international degree, such as an MBA or a specialised Master's degree, in addition to the degree earned at EBS. The dual degree option requires a fourth semester and an examination at the partner university.

Integrated internships

Practice Track

This includes two semesters of study at EBS Universität as well as an intensive, long internship in the third semester and a final thesis.
