# University of Bremen

---

The University of Bremen was founded in 1971. What was to become known as the "Bremen Model" was conceived in times of social reform. Its core elements apply to this day and it was these basic principles which first made the subsequent research success possible: interdisciplinary orientation, research-based learning in teaching projects, orientation to practice, and, one of the newly added guiding principles, internationalisation of teaching and research.

## University location

The Hanseatic city on the banks of the Weser River emanates a special charm. Bremen enjoys a reputation for being cosmopolitan and tolerant. It has a lot to offer: ports and ships, universities, colleges, high technology, and picturesque, narrow streets built in centuries past as well as a comprehensive programme of sports and cultural events.
