Winter School in Biomedical Sciences

universität freiburg

University of Freiburg • Freiburg im Breisgau

Overview

| | |
|--------------------------|---|
| Course location | Freiburg im Breisgau |
| Teaching language | <ul style="list-style-type: none">English |
| Language level of course | <ul style="list-style-type: none">English: B2 |
| Date(s) | <ul style="list-style-type: none">28 October 2024 - 30 April 2025 |
| Target group | The programme is tailored to the interests of international graduate students in life sciences, natural sciences, or medicine. |
| Description/content | <p>Biomedical sciences combine knowledge and questions of experimental medicine with methods of molecular biology and cell biology. This international programme is designed as an intensive time of studies and research with a specific and practical training that qualifies for success in academia or the private sector. The modules focus on the following topics: pharmacology and toxicology, materials and microsystems, molecular and cellular biology, immunology and pathology, molecular oncology, molecular cardiology, and bioinformatics and artificial intelligence and bioethics.</p> <p>In addition, participants chose a personal research project. Each research project is individually supervised and involves eight weeks of lab work — that is seven weeks of experimental work followed by a week of data analysis — and a written lab report in the format of a scientific research publication.</p> <p>Furthermore, the students will receive specially designed lab training, scientific and intercultural communication training, and a regular German language course.</p> <p>The programme is tailored to the interests of international graduate students in life sciences or medicine with professional experience. Applicants should hold at least a Bachelor's degree or equivalent degree in biology, biochemistry, medicine, chemistry, pharmacy, or a related field and have proof of their English proficiency (minimum B2 level).</p> <p>The successful participation in the programme concludes with a Diploma of Advanced Studies in "Biomedical Sciences" (DAS) with a total of 30 credit points (CP) in the European Credit Transfer System (ECTS).</p> <p>Credit Points: Requirements In order to be awarded credit points, the following is required:</p> <ul style="list-style-type: none">preparation according to the specifications and material provided by the professorsactive participation in class and in the labreading and self-studyactive participation in group presentationswritten and oral examinations |

|--|----|
| Recognised language exams offered (e.g. DSH, TestDaF, TOEFL) | No |
| ECTS points (max.) | 30 |
| Average number of hours per week | 45 |
| Average number of participants per group/course | 15 |

Costs / Funding

| | |
|---------------------|---|
| Dates and costs | <ul style="list-style-type: none">28 October 2024 - 30 April 2025, costs: EUR 4,500 |
| This price includes | <ul style="list-style-type: none">Course fees |

Requirements / Registration

| | |
|--------------------------|---|
| Teaching language | <ul style="list-style-type: none">English |
| Language level of course | <ul style="list-style-type: none">English: B2 |
| Language requirements | Proof of English language proficiency with a B2 minimum level of English because the only teaching language will be English |
| Submit application to | www.biomedmaster.org |

Services

| | |
|-----------------------------|---|
| Is accommodation organised? | The organiser helps participants look for accommodation. |
| Meals | Lunch and dinner are available at the student canteen at reasonable prices. |

Is a social and leisure programme offered? No

Free internet access Yes

Support in visa matters Yes

Pick-up service from train station/airport No
