FUNDING PROGRAMME

International Study and Training Partnerships (ISAP)
from WS 2024/25 to max. 2027/28

The German Academic Exchange Service (DAAD) finances the programme “International Study and Training Partnerships (ISAP)” with funding provided by the Federal Ministry of Education and Research (BMBF).

Funding is granted to develop, expand and maintain study and training partnerships between a German institution of higher education and an international partner university. Partnerships with the Russian Federation and Belarus are excluded.

The goals of the programme are:
1. to enable individual faculties to establish or continue international study and training partnerships with the international partner universities (e.g. through the exchange of instructors),
2. to support groups of highly qualified German and international students who wish to complete part of their degree programme at the partner university and receive full recognition of their academic achievement abroad,
3. to establish credit-transfer agreements, offer attractive degree programmes and develop joint curricula as a basis for long-term, mutual exchange.

The programme promotes the internationalisation of German universities in the long term, and in so doing, contributes to creating productive and cosmopolitan institutions of higher education.

Environmental sustainability
The DAAD is committed to further reducing its carbon footprint in connection to its operations performed as an organisation and funding provider. In all of its project funding activities, it strives to plan and administer programmes in a resource-, climate- and environmentally-friendly manner. This applies particularly to mobility/travel but can – depending on the type and scope of the project – apply to procurement and allocation, event management and/or marketing and public relations activities. (Information on sustainability is voluntary and does not yet play a role in the selection process.)

The fundable measures/activities include:
• supervision of the ISAP degree programme (e.g. by project staff)
• supervision of ISAP students (e.g. by project staff)
• work meetings at the international partner university
• guest lectureships at the international partner university (as a rule, min. of 2 weeks to max. 3 months)
• visits by the foreign guest lecturers at the German university (min. 2 weeks to max. 3 months)
• preparatory courses in Germany (e.g. language courses, in-person or online intercultural preparatory courses)
• public relations measures (e.g. printed flyers, social media, information events etc.)
• alumni relations activities (see FAQ list for examples)
• full scholarships to students of German universities
• subsistence and mobility allowances for students from partner universities in DAC countries

Please note:
All measures can be supported by using/developing digital formats (e.g. digital teaching/learning scenarios, virtual exchange formats, tools for supervising students. For more examples of digital formats, see FAQs).

FUNDABLE EXPENDITURES

Personnel expenses for project implementation and management

PROJECT PERSONNEL (DOMESTIC)
• academic staff
• research assistants
• student assistants
• other personnel

Personnel expenses comprise gross remuneration paid by the employer. Special annual payments are only fundable within the approved funding period and only when expended during this period.

If employing student assistants for project-related administrative duties would cause problems, these expenses can be designated as remuneration for TV-L employees (max. E8) in the application.

Material resources

FEES (not for one’s own personnel)
• for external language instructors or visiting lecturers to prepare students at the German university for a stay abroad
• to supervise students from the partner university while in Germany (e.g. language courses)
• fees for implementing digitalisation projects

The DAAD has set no cap to the funding amount which can be awarded. However, personnel expenses, fees and material resources (domestic) are limited to a maximum of 7,500 EUR/funding year.

**DISCIPLINES**

This programme is open to all disciplines and subject areas.

**TARGET GROUP**

**APPLICATION**

Please note:

In response to Russia’s attack on Ukraine, the DAAD has suspended all institutional forms of cooperation with partners in the Russian Federation and Belarus until further notice. Consequently, applications for project funding with partner institutions in the Russian Federal and Belarus cannot be accepted at this time.

The funding application must be submitted in full and on time via the DAAD online portal ([www.mydaad.de](http://www.mydaad.de)).

The responsible coordinator for the proposed ISAP project must be a professor at the applying German institution. If several partner universities collaborate on multiple projects in one degree programme, separate applications must be submitted for each partner. A maximum of three projects per degree programme may receive funding at any one time.
Subsequent applications should be submitted via the DAAD portal under the menu headings “Project overview” and “Submit subsequent application”.

**Selection-relevant application documents**
