To this end, scholarships are granted for development-related Master or doctoral studies for individuals who plan to pursue a career in teaching and / or research at a higher education institution in Sub-Saharan Africa.

By training future academic and professional leaders, the programme contributes to the following **long-term impacts**:

To achieve these long term impacts, the following outcomes have been formulated as programme objectives:

**Programme objective 1:** Graduates have qualified to take over responsible positions in their, or for their, region of origin

**Programme objective 2:** The participation of women and underprivileged groups is reinforced

**Programme objective 3:** Organizational, financial and personal capacities of partner institutions are strengthened

As part of the „In-Country/In-Region Scholarship Programme“ DAAD offers scholarships for PhD and Master studies.
