To this end, scholarships are granted for development-related Master or doctoral studies for individuals who plan to pursue a career in teaching and / or research at a higher education institution in Sub-Saharan Africa.

By training future academic and professional leaders, the programme contributes to the following **long-term impacts**:

- in another Sub-Saharan African country

**(In-Region scholarships** are aimed at students who want to participate in a study programme in a country of their home region (here: Sub-Saharan Africa /outside their home country and in the country for which they do not have a residence permit).
